

In the claims:

Please amend the following claim:

(Version with markings to show changes made):

- 1 1. (Twice Amended) A portable speed bump unit for slowing a vehicle, comprising:
2 a plurality of speed bump cells, each said speed bump cell being a block [and] having
3 a bottom, [and] a top surface, and a means for supporting the weight of the vehicle to support
4 said top point a fixed distance above said bottom, said top surface starting at a front edge of
5 said bottom, rising to a top point above said bottom, and falling to a back edge of said
6 bottom[, such that the plurality of speed bump cells is capable of supporting the weight of
7 the vehicle]; and
8 a means for pivotally interconnecting said plurality of speed bump cells, wherein the
9 portable speed bump unit is stored by rolling up said plurality of speed bump cells and is
10 deployed by unrolling said plurality of speed bump cells.

Please enter the following new claim:

- 1 --32. The portable speed bump according to claim 1, wherein said means for supporting the weight
2 of the vehicle is said block being substantially solid.--

The following is a clean version of amended claim 1 and new claim 32, their entry is respectfully requested:

- 1 ~~1. A portable speed bump unit for slowing a vehicle, comprising:~~
2 a plurality of speed bump cells, each said speed bump cell being a block having a
3 bottom, a top surface, and a means for supporting the weight of the vehicle to support said
4 top point a fixed distance above said bottom, said top surface starting at a front edge of said
5 bottom, rising to a top point above said bottom, and falling to a back edge of said bottom;
6 and
7 a means for pivotally interconnecting said plurality of speed bump cells, wherein the
8 portable speed bump unit is stored by rolling up said plurality of speed bump cells and is
9 deployed by unrolling said plurality of speed bump cells.

32. The portable speed bump according to claim 1, wherein said means for supporting the weight of the vehicle is said block being substantially solid.
